	CONSTRUCTION OPERATIONS		DESIGNER: Your Name

#	OPERATION	SEAM	STITCH	SPI	NOTES
1	Cut front, back, neck binding, and armhole binding components; transfer dart, center front seam, center back zipper, hem, and balance marks.	N/A	N/A	N/A	Prepare shell and binding parts per pattern.
2	Apply fusible stay tape to center back zipper opening and back neckline as indicated.	N/A	N/A	N/A	Stabilize zipper opening and back neckline before sewing to prevent stretching and distortion.
3	Sew front bust darts and press toward hem.	 SSa	301	10-12	Taper smoothly to dart point; no backstitch at tip.
4	Join front panels at center front seam and press seam open.	 SSa	301	10-12	Visible center front seam extends to hem.
5	Finish center front seam allowances separately with overedge stitch and press seam open.	 EFa	504	12-14	Overedge each seam allowance separately for clean open-pressed center front seam.
6	Join front and back at shoulder seams and press open.	 SSa	301	10-12	Match neckline and armhole edges accurately.
7	Finish shoulder seam allowances with overedge stitch.	 EFa	504	12-14	Clean finish on both shoulder seam allowances.
8	Insert invisible zipper at center back opening.	 LSa	301	10-12	Set zipper from back neck down to indicated opening length; attach puller as supplied hardware.
9	Sew center back seam below zipper and press seam open.	 SSa	301	10-12	Start exactly at zipper base for smooth continuation.
10	Finish center back seam allowances below zipper with overedge stitch.	 EFa	504	12-14	Do not catch zipper tape in finishing.
11	Apply self-fabric neck binding around neckline, turn to inside, finish binding ends cleanly at center back zipper, and edge topstitch.	 BSA	301	10-12	Maintain clean minimalist neckline with visible narrow topstitching; ensure binding ends are clean at zipper opening.
12	Attach main label and size label at inside back neck below neckline binding.	 LSA	301	10-12	Center main label at inside back neck; attach size label below main label as specified in BOM.
13	Join front and back at side seams; insert care/content label into inside left side seam; press seams open.	 SSa	301	10-12	Ensure side seam lines remain clean through flared skirt; care label positioned at inside left side seam.
14	Finish side seam allowances with overedge stitch.	 EFa	504	12-14	Finish each seam allowance separately for open-pressed seam.
15	Apply self-fabric binding to both armholes, turn to inside, and edge topstitch.	 BSA	301	10-12	Apply after side seams are closed; keep armhole curve smooth and even with clean narrow topstitching.
16	Turn back bottom hem to specified hem allowance and topstitch around sweep.	 Efb	301	10-12	Maintain even hem turnback and visible hem topstitching; keep curved sweep flat without twisting.
17	Final press garment, trim loose threads, inspect zipper function and seam appearance, attach hangtag, then fold and pack in polybag.	N/A	N/A	N/A	Check neckline, armholes, center seams, hem symmetry, label placement, hangtag, and packaging.
